IRON-ON TRANSFER

It's fun and easy to apply your transfer on a T-shirt or Sweatshirt!
Have an adult Iron on this design for you.

Apply to cotton or cotton poly blends only. Pre-washed garments are recommended.

1. Pre-heat hand iron to setting between wool and cotton. Remove all water from a steam iron.
2. Place thin towel on a hard, clean surface. Do not use an Ironing board. Lay out garment, smooth out wrinkles and position transfer on garment, image side down.
3. Iron transfer pressing down firmly and steadily, constantly moving the iron back and forth for 30 seconds. If the transfer is larger than the surface of iron, repeat this step several times until entire area has been covered.
4. Let garment cool completely before removing paper.

*If transfer will not release from paper or is not adhered to fabric then repeat step 3 and 4. Do not re-iron directly over the surface of an applied transfer. If garment must be repressed then cover with this paper.

Before washing, turn garment inside-out. Wash cool water, tumble dry low or line dry.

with any other offer.

Please Read - DIRECTIONS - Important

This product is permanent, washable and colorfast when properly
applied. Used by the garment industry. Follow directions for
permanent results.

1. This transfer is not recommended for nylon, tightly woven fabrics or garments that
need to be dry cleaned. Pre-wash your garment to get rid of any chemicals.

2. Pre-wash your iron to remove lint and debris. If using a steam iron,
use the lowest steam setting.

3. Use only a hard, clean smooth work surface protected with a thin towel. A heat
resistant surface top in the kitchen is an excellent choice. Do not use an ironing
board.

4. Lay out your garment and smooth out any wrinkles. Position transfer on garment, image
side down.

5. With your iron, pressing down **FORWARD** and steadily, constantly moving the iron **BACK
AND FORTH** for 30 seconds. Longer time may cause discoloration of fabric. If
transfer is larger than the surface of iron, repeat this step several times until entire
transfer is covered.

6. Let garment cool completely before removing paper. If transfer will not release
smoothly, or if not released into fabric, reduce speed, handle paper and repeat
steps 4 & 5.

7. Store this paper until the garment has been washed several times. If the transfer
will not let you repeat, repeat steps 4 & 5.

8. Before washing, turn garment inside-out. Wash **COOL** water, tumble dry or lower
setting machine dry.

DO NOT reuse directly over the surface of an applied transfer. If your
garment is used as a model for your work to create more transfers in the same
garment, cover the transfer with a piece of paper or fabric.

GENERAL SERVICES & INFORMATION

ART PREPARATION

Your first 1/2 hour of art time is Free.
Factory determines if art is Camera Ready - meets production standards. This does not include photocopies or PMTs of photocopies, business cards, letterheads etc. All multi-color artwork must be color separated. For Nylo-Flex and Color-Ons lines should be bold. Minimum line thickness is 1/16" but bolder is even better! If art does not meet these standard an art charge may be assessed. Type Styles will be matched as closely as possible. Exact matches cannot be guaranteed.

DIGITAL ARTWORK

1. Artwork should be saved in CorelDraw (vector graphic file). Vector graphics are made up of lines and curves that can be filled or stroked with color. Bitmaps must be single color, 100% to size, and saved in one of the following formats: .eps, .tif, .pdf, or .pcx.

2. Please convert all text to curves to ensure there are no font or printing conflicts.

3. If the file contains multiple colors, please make sure that all colors are "SPOT" (pantone) colors.*

4. You may send the graphic file via e-mail. If you send your order via e-mail be sure to include your company name, address, type and quantity of transfers, and the number of colors. Please send e-mail to: art@mach3art.com

5. Please make sure that all files are virus free prior to sending.

PROOFS

A. Fax - \$10.00 NET.
B. Color swatch of available ink - \$10.00 NET (Priority Mail).
C. EMAIL PDF Proof - \$10.00 NET.
Allow 3 Days for proof preparation & another 15 business days after approval for shipment (25,000 pieces & less).

SAMPLES

Actual pre-production samples require 2 weeks in plant. Allow 15 business days after approval for shipment of order. Call for prices.

COLORS

Stock colors which are generally close to colors desired at no extra cost will be used unless a color match is requested. Color matches must be clearly stated on order using the UNCOATED Pantone color system or accompanied by a color swatch. Color match cost - \$50.00 NET per color. We cannot guarantee perfect color matches. Customer must accept factory match once requested.

OVER RUNS AND UNDER RUNS

We reserve the right to ship and bill 5% over and under. Orders marked "no overs" start with the exact quantity. Any rejected in the final inspection will not be replaced. Orders marked "exact quantity" or "no over - no under" will require an additional charge of 3% ADDED to the individual transfer price at any quantity level.

PRICING

Subject to change on 60 day notice. No in-between pricing.

SHIPPING

F.O.B. Iowa Plant. Please specify mode of shipment desired. If no specific shipping instructions are requested, most orders will ship via FedEx Ground or UPS Ground insured for value. Ship costs added to invoice. Truck shipments forwarded collect-goods insured only by carrier on weight basis. Unless specific shipping instructions are noted on an order, we reserve the right to ship by the mode we determine to be most desirable.

SPLIT SHIPMENTS

Add \$10.00 NET for EACH shipping destination and for EACH shipping method.

ARTWORK

All positives, negatives and preparation materials are property of factory and filed with job for 2 years.

RUSH SERVICE

It is necessary to contact the factory each time rush service is wanted to determine whether requirements can be met and additional costs involved.
